Atty. Dkt.: 3024-102

For: **Apparatus and process for optimized electro-hydraulic pressure pulse generation**

Third Information Disclosure Statement

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

Under the provisions of 37 C.F.R. 1.56, 1.97 and 1.98, applicant submits herewith form PTO/SB/08a which lists references that were cited in a communication issued in a counterpart German application on July 21, 2005. A copy of this communication is attached. The reference is cited in paragraph 5 of this communication in connection with other references previously provided to the Office.

Paragraph 5 reads:

The forms of discharge oscillations (discharge curves), which occur in each case at a certain ratio of resistance R , inductivity L and capacity, are shown in picture 23 of reference 4.

The above reflects the assessment provided by the German Patent Office. Applicant neither admits nor denies that is assessment is correct.

No fee is believed to be due. However, the Commissioner is authorized to charge any fee deficiencies or overpayment made in connection with this filing to representative's deposit account No. 50-3135.

Respectfully submitted,

/Joyce v. Natzmer/
